

# EquipAbility

**EquipAbility** is a program of Tri-County Patriots for Independent Living through which consumers may obtain durable medical equipment at low or no cost.

Devices which can be obtained through EquipAbility include walkers, manual or power wheelchairs, canes, bedside commodes, and home health care (hospital) beds.

Unneeded but still serviceable devices may be donated at our office. A tax receipt will be provided to donors on request.

This valuable service gets equipment into the hands of those who need it and keeps it out of landfills.
